The reverse free from marks of circulation, the obverse almost as fine; better than the cent sold in the Burton collection known as the "Jones cent," and which at a previous sale brought $100. *Of excessive rarity.*

304 1799 Bought from Mr. J. S. Twining, who informs me that he bought it from Mr. J. W. Haseltine, and paid him $15 for it on a positive assurance and guarantee of its genuineness. I sold the cent April 28, 1886, to a prominent Canadian collector. About this time the editor of an amateur sheet, who, because he writes *we* instead of *I*, seems to think that when a new stamp paper appears a new power has sprung into being, a new and illimitable force in dynamics, took occasion to make some malicious and false statements in regard to this particular coin, calculated especially to prejudice the buyer of the piece. I may say that the buyer was a gentleman, and perfectly satisfied with the transaction, but at my special request he accepted the money, and returned the piece, and it is now sold as it is, with all the facts fairly stated.

305 1800 over 1790, fine.

The preceding bright cents were from a lot found by John Swan Randall of Norwich, New York. From the lot collectors have been mainly supplied for a number of years; but the find is exhausted, and no more can be found in the hands of dealers. Something more than two years ago a bright star of primary magnitude burst upon the numismatic firmament; it broke upon me with a full blaze and absorbed all the remaining bright cents which I possessed. This luminary called itself Bowers, and announcing itself as a most important purchaser of coins, with abundant wealth, which it was anxious to scatter, it purchased from me many of these bright cents with many silver coins from the stock of J. Colvin Randall. Mr. Bowers promised me that he would call the next Tuesday, with his serving man, loaded with capital, to take away his treasure. Two years have passed since then, and I suspect he forgot to call; but I occasionally see him in Boston dodging furtively into the offices of the specie and pawn brokers, and once in a great while hear of him through the latter, with whom he is accustomed to "shove up" an occasional rare coin.

756 Nearly thirty years ago several gentlemen from New York found in possession of the Scoville Manfg. Co., of Waterbury, Conn., a large number of original dies for store cards, some of which, for many years, had been *extremely rare*. Of these cards they caused a number to be struck. These all passed into the hands of Mr. Levick, from whom they were purchased by me, and have been offered for sale at various times since May, 1884. They are all very fine, many in proof condition as struck. Original impressions are rare, and many are *extremely rare*. 805 1863 Three Dollars; fine, very scarce.

806 1882 Three Dollars; brilliant proof, scarce.

807 New York Doubloon. Within a few months the Boston Transcript has published an account of the Brashers, a family famous in the latter part of the last century as goldsmiths in New York. They stamped their work with monograms bearing their initials. One of the brothers issued the New York "Nova Eborac Doubloon," which is stamped "E. B." for Ephraim Brasher. *This* particular piece is a Spanish doubloon of the variety usually known as cob money. It was evidently perforated and plugged, with the view of increasing its weight, which is now 451 grains, about the weight of a Spanish doubloon. It bears the stamp "I. B." which, I believe, identifies the piece as American, and the handiwork of the Brashers. The gold is of superior fineness, and said to be about pure; *rare*, and I believe unique.

808 1797 Quarter Eagle. From the Dohrmann collection; fair, and of the most *extreme rarity*, — the rarest of the quarter eagles with possibly one exception.

809 1849 Five Dollars, Mormon issue; clasped hands; rev., eye and bishop's cap. "Holiness to the Lord"; *rare.*

810 1849 Five Dollars, issued by the Cincinnati Mining and Trading Co. An Indian head with feathers; rev., an eagle. This is one of the scarcest of the California pattern pieces; it is struck in copper and is even rarer than the issue in gold; blemished.

811*b* 1694 Two Crowns. Louis XIV, France. A little bruised.

812 Cobang, with the exception of the Obang the largest of Japanese gold coins; unusually fine; in weight about $8.

813 A collection of silver coins. English shilling, sixpences, groats, Maundy money, 1, 2, 3, 4 pence, 10 cents Straits Settlements, *rare* original jeton of Queen Anne, reals, medios, quartillas, etc., of Spain and various Spanish States, one acclamation pistareen, Mexican ten cents, small French coins, franc and under, and a great variety of coins, all in fine silver, and mostly in extra condition, with a number of fine and rare little medals, also in silver; in weight about 3000 grains. A pretty and interesting collection. 108 pcs.

814 Another collection, of similar character, principally in base silver, a number in standard silver, mostly very good. 116 pcs.

## AMERICAN PATTERN COINS OF 1792.

815 Martha Washington Half Disme. Portrait Head, said to be of Mrs. Washington; rev., small flying eagle. This piece was perforated, but has been so skillfully repaired as hardly to show the blemish. It is very fine, and, as is well known, *extremely rare.*

816 1792 *Pattern Cent with Silver Centre.* This coin, having passed the scrutiny of several sales, was finally purchased by me for Mr. Dohrmann, of San Francisco. No question as to its genuineness has ever been raised. After some time Mr. Dohrmann consigned it to me for sale. I sent it on sale to the Chapmans, of Philadelphia. I occasionally heard of it as offered to Philadelphia collectors at an unheard of price, I think $350. It was finally returned to me, and I offered it for sale on Mr. Dohrmann's account. It had no sooner appeared, than the young men referred to, with that superior "antiquarian" knowledge for which they are so celebrated all the way from Philadelphia to Germantown and nearly back again, and with their characteristic effrontery, denounced the coin with the apparent intention of preventing its sale by Mr. Dohrmann. The silver plug in the centre, by careful examination, showed a slight projection above the surface of the piece. It was intrusted to Mr. A. C. Gies, of Pittsburg, Pa., who tightened the plug, and, with consummate skill, retouched the engraving of the legend on the silver. These are the simple facts, and all the facts. The piece was purchased from me by Mr. Dohrmann, and I believe it was originally No. 2135 in the celebrated Mickley collection, purchased by Col. Cohen, and afterward sold by Mr. Cohen. It is an undoubted original impression, with the exception of the letter which has been retouched, and the owner claims that it has not been blemished by the treatment to which it was subjected by Mr. Gies, and that it is as rare and valuable a silver centre cent as any in existence. It may be said that all the facts concerning this piece were known to Chapman Bros. during all the time that they were offering it for sale in Philadelphia, and Mr. Dohrmann, until the day of his death, felt himself deeply wronged by what he could not but regard as injurious statements concerning his ownership of this coin. The Silver Centre Cent brought in the Mickley Sale $54. This cost Mr. Dohrmann a much larger sum.

## NATIONAL MEDALS, ETC.

Many persons who knew something of American numismatics as early as 1840, will remember the old French adventurer, whose baptismal name was Jacques Groux, but who was generally known as Prof. Daniel E. Groux. Before he came to America he traveled extensively as a courier, with Mr. Walters of England, and afterward with Prince Galitzin of Russia, by both of whom he was highly recommended for his honesty, his skill in cookery, as a courier, and for various other accomplishments. He managed to get possession of a large and valuable numismatic collec-

tion, which he brought with him to Ameriea. Afterward, for several years, he figured here in various capacities, as valet, scullion, eook, etc., subsequently as a professor and a writer on financial matters and politieal subjects. In New York City he made the aequaintance of Thomas Wyatt, of unsavory reputation in eonnection with a fraudulent issue of Ameriean eoins. Groux entered into partnership with him for the purpose of conduеting a numismatic business. He sought the acquaintanee of several distinguished men in roping them into an interest and quasi-endorsement of some of his sehemes. Daniel Webster, Charles Francis Adams, Dr. Winslow Lewis and others were amongst his victims. This somewhat long explanation seems necessary to explain the "reason for being" of the following casts and fac-similes of medals. The National and Presidential medals were first made in fac-simile by Wyatt, and the following set, with the others which were manufactured by Groux, were sold to Dr. Winslow Lewis for a large sum, and came to me when purchasing his eollections. All are fae-similes, some copper, some silver-plated, and being fairly well made they answer a useful purpose and serve as objects for study and comparison.

# ANNOUNCEMENT.

The undersigned begs to announce that he holds frequent sales by auction in New York and Boston, of coins, medals, tokens and prehistoric objects in stone and flint, pottery, bronze and copper, and solicits consignments of the same from collectors, and owners, executors, administrators and trustees, all of which goods he will properly catalogue, and offer for sale to a large constituency of buyers both in America and in Europe with a view to obtaining for owners remunerative prices.

To the sale of coins and medals particularly, and of the various objects to which collectors turn their attention, he has devoted his time for more than thirty years, and he feels that the multitude of his sales and the general success attending them offer a guarantee of faithful service.

For this service a uniform charge of 25 per cent. is made with such trifling expense as packing boxes and transportation, which is seldom more on a consignment than from one to two dollars. This commission includes preparation of the catalogue, printing, distribution and postage, and attendance on the sale in the interest of owners, and the purchases made free of commission to buyers, with no charge to them except freight and packing as aforesaid.

Aware of the low prices at which sales are undertaken at auction, it may be said that the average cost of auction sales for cash paid out averages about 17 per cent. and it is obvious that it cannot fairly be undertaken for less than 25, and in case it is, some interest of the owner must be neglected either by inadequate description or by crowding lots together at the risk of realizing inadequate prices.
